To Whom It May Concern:

I am writing to express my wholehearted support of Life After Whistles. This is an extraordinary program which takes a uniquely proactive approach by offering our local youth athletes an opportunity to discover positive ways to grow into responsible, well rounded adults.

Life After Whistles recognizes today's youth are tomorrow's potential leaders. The L.A.W. program will strive to positively impact our area youth in a positive way as they transition from childhood to adulthood. This program will provide valuable resources to support their educational goal setting and achievement.

As a community, we look forward to working with the L.A.W. organization as they move forward in their efforts to provide our local youth with wonderful opportunities to grow and learn.

Sincerely,

Kent Cagle  
City Manager
